

KOTAK SAVINGS FUND

An open ended ultra-short term debt scheme investing in instruments such that the Macaulay duration of the portfolio is between 3 months and 6 months. A moderate interest rate risk and moderate credit risk.

Investment Objective: The investment objective of the Scheme is to generate returns through investments in debt and money market instruments with a view to reduce the interest rate risk. However, there is no assurance or guarantee that the investment objective of the scheme will be achieved.

Scheme Inception :- August 13, 2004. The returns are calculated by XIRR approach assuming investment of ₹10,000/- on the 1st working day of every month. Since Inception returns are assumed to be starting from the inception date of the Scheme and calculated accordingly. XIRR helps in calculating return on investments given an initial and final value and a series of cash inflows and outflows and taking the time of investment into consideration. **The SIP performance details provided herein are of Regular Plan - Growth Option** Different plans have different expense structure. # Benchmark; ^ Additional Benchmark. Alpha is difference of scheme return with benchmark return. *All payouts during the period have been reinvested in the units of the scheme at the then prevailing NAV. Source: ICRA MFI Explorer. (^) Fully or Party blocked against Interest Rate Swap (IRS) (^) This scheme has exposure to floating rate instruments and / or interest rate derivatives. The duration of these instruments is linked to the interest rate reset period. The interest rate risk in a floating rate instrument or in a fixed rate instrument hedged with derivatives is likely to be lesser than that in an equivalent maturity fixed rate instrument. Under some market circumstances the volatility may be of an order greater than what may ordinarily be expected considering only its duration. Hence investors are recommended to consider the unadjusted portfolio maturity of the scheme as well and exercise adequate due diligence when deciding to make their investments. Hedging Position through Interest Rate Swaps as on 31 Dec 2025 is 25.95% of the net assets. ** Total Expense Ratio includes applicable GST.

Scheme Performances as on December 31, 2025 (unless otherwise specified)
